APPLICATION OF

CPV WARREN, LLC

CASE NO. PUE-2002-00075

**For a Certificate of
public convenience and
necessity for electric
generation facilities in
Warren County, Virginia**

HEARING EXAMINER'S RULING

July 17, 2002

On June 27, 2002, CPV Warren, LLC ("CPV Warren" or "Company") filed a Motion to Submit Supplemental Testimony ("Motion"). Attached to its Motion was the prepared supplemental testimony of Frederick M. Sellars and Harry Vidas. These testimonies were filed in response to Commission decisions in other proceedings concerning developing a factual record regarding cumulative air quality impacts. Mr. Sellars' supplemental testimony addresses the potential cumulative air quality impacts of the proposed facility, alone and in combination with other proposed projects in the Commonwealth. MR. Vidas' supplemental testimony evaluates the extent to which proposed gas-fired plants in Virginia, including CPV Warren's proposed facility, will displace existing, higher-emitting generation. No party has objected to accepting the supplemental testimony. Good cause having been shown, I find CPV Warren's Motion should be granted.

IT IS DIRECTED that the supplemental testimony of Mr. Sellars and Mr. Vidas be accepted.

Alexander F. Skirpan, Jr.
Hearing Examiner
